

Suspension Protection System Products

DISCOVER THE MANY WAYS
THE EVER-DURABLE WAREPAD
IS THE ANSWER TO YOUR
SUSPENSION PROBLEMS

COST SAVINGS

- Can eliminate the replacing of hangers and equalizers
- Decreases side wear
- Reduces spring breakage
- Reduces labor costs
- EWP is a fraction of the cost to replace entire suspension
- Outperforms steel wear pads
- Reduces stress on related components
- Maintains the integrity of entire unit

REDUCES MAINTENANCE

- Easy to install
- Reduces maintenance down-time
- Offers total spring path protection
- No welding or torching
- No de-gassing

OTHER BENEFITS

- Stops constant pounding of suspension
- Improves ride quality
- Reduces noise
- Can be easily inspected
- Helps slow the rusting process
- Increase in safety
- Increased customer satisfaction

ADD THESE UP:

- EWP eliminates metal to metal
- EWP is a non binding/natural lubricant
- EWP eliminates friction/resistance
- EWP allows the suspension to move freely
- EWP allows the suspension to re-align quicker

WHICH EQUALS:

- **A Decrease in Rolling resistance during twists / turns**
- **A Decrease in Tire scrubbing / wear**
- **A Decrease in Fuel consumption**
